Why Should We Care

- **China Exports the State Terrorism.**
 - ❖ China uses political and economic pressure to silence the western media & politicians.
 - ❖ China's state-run media tightly cover up this human atrocity, and spreads out propaganda and hate campaign worldwide.
 - ❖ Many Falun Gong practitioners & supporters in U.S. (including NYC) and other countries are harassed and attacked.
- **This Persecution Puts China On the Edge.**
 - ❖ Huge amount of the state capital and foreign investment are used in this persecution.
 - ❖ Foreign investors indirectly supported this persecution when investing in China.
 - ❖ Thousands of mainstream society citizens are forced to work as slave-labor.
 - ❖ All kinds of torture are used to force people to give up their belief in Truth, Compassion, and Tolerance – this deteriorates morality and accelerates corruption. Falun Gong effectively stabilizes the society by improving people's health and morals.

For the sake of humanity and better future of mankind, we must take action. International community's voice matters to the new leaders of China.

Sterling Campbell, Drummer

Being a musician, my surroundings were not the healthiest. And being the giant current of bad influence, I got into trouble. But when I started practicing Falun Gong, in one month, I just snapped out of all those environmental hazards, alcohol, and drugs.

Terri Marsh, Lawyer

Many have commented on my inner peace and calm. I am able to handle multiple lawsuits, travel, interviews, attendance at conferences and panels. I am able to help those closest to me, with wise advice, rather than depend

on them to advise me.

Why The Persecution

"Communist Party sources said that the standing committee of the Politburo did not unanimously endorse the crackdown and that President Jiang Zemin alone decided that Falun Gong must be eliminated."

- John Pomfret, Washington Post, Nov. 12, 1999

The former head of China, Jiang Zemin launched this persecution against millions of mainstream society citizens in July 1999. Why:

- Since Jiang took power through the Tiananmen massacre in 1989, he has been insecure about his authority, and fear of losing over control of people's minds.
- Jiang's strong jealous of Falun Gong's popularity --- many the Communist Party members and high-ranking officials also practice Falun Gong.
- The communist dictatorship does not allow growth of any spiritual practice. Falun Gong helps to people to gain higher morals and greater wisdom. Jiang views this as a threat to his corrupted regime.

In order to eradicate people's belief in Truthfulness, Compassion, and Tolerance, Jiang has deployed the most extreme physical and mental torture ever devised in human history.
