

# Truthfulness Compassion Forbearance

- Art exhibition -

*Since ancient times, people have been exploring the mysteries of life and the universe, the relationship between humans and nature, and how human beings should live. Traditional Chinese culture esteems the theory that the universe and human beings should be a unified body, and seeks harmony between the sky, the earth and among human beings through all time. "Truthfulness-Compassion-Forbearance" is the universal principle that comprises the corner stone of human ethnics and is the source of freedom and peace. It holds dominion over time and space, culture, religion, and politics, and is the eternal spirit of the universe.*

*For artists who demonstrate through their works their seeking of truth, reverence for the gods, and of the nature of compassion and righteousness as compared to evil and maliciousness, the purpose of their works is not the pleasure of people, but to lead people to higher levels of wisdom and truth. Such art works are not just beautiful objects. They are vehicles of truth, of eternal beauty which never diminishes through time and space. They purify people's minds and elevate their spirituality. Those are what art works should be. The works in this exhibit were created by a group of artists who have significant achievements in their respective areas. Through practicing Falun Dafa, they have attained health in both body and mind, acquired profound understandings of the truth about life and the universe, and found answers to their life-long searches for the purposes of art and life.*

*The exhibit is composed of four parts:*

*Part 1: The Beauty of Cultivation*

*Part 2: Uncompromising Courage*

*Part 3: Calling for Justice*

*Part 4: Justice Prevails*

*These works describe the beauty of human beings and the universe in full harmony, of lives assimilated to "Truthfulness-Compassion-Forbearance." The works reveal the cruel persecution of Falun Dafa and its practitioners by the Chinese Communist Party (CCP) and the universal principle that evil will be punished. In these works, we see that when justice, freedom, respect, and human rights are challenged by evil, ordinary people become extraordinary. We see how, when "Truthfulness-Compassion-Forbearance" is challenged by a malicious power, Falun Dafa practitioners endure the calamities with their compassionate and expansive minds. Through all the suffering, Falun Dafa practitioners practice "Truthfulness-Compassion-Forbearance" with their entire beings, and have brought justice, freedom, peace, and the powerful energy of righteous belief to the human world.*
