The figure displays 12 Chinese lunar and solar calendars for the year 2023, arranged in a 3x4 grid. Each calendar shows the days of the month, the corresponding lunar phase, and the solar term. The calendars are arranged in a 3x4 grid. The first row shows the months of January, February, March, and April. The second row shows May, June, July, and August. The third row shows September, October, November, and December. Each calendar has a header with the days of the week (日, 一, 二, 三, 四, 五, 六) and a footer with the month and year (e.g., 元旦, 立春, 雨水, etc.). The dates are color-coded: red for the first day of the month, green for the last day, and blue for the middle days. The lunar and solar terms are written in Chinese characters.
